

# Melissa, x, Jeremy, Scott, colorful jelly shoes series - NOWRE now available adidas Yeezy Boost 750 B - Cheap Shoes

Release 2017

melissa and designer Jeremy Scott, for the first time, have launched women's shoe designs. Jeremy Scott designed this series of plastic jelly shoes with the inspiration of swimming pool inflatable toys. With two designs of fish mouth, high-heeled shoes and short boots, it uses a variety of popular color design, of course, the most notable feature is the details of the inflatable valve decoration. Jeremy Scott still shows a powerful and interesting design style. The series has taken the lead in Colette and 10 Corso Como stores.

Following the highly demanded Grey colorway of the adidas Yeezy 750 Boost, an upcoming adidas Yeezy 750 Boost   Black   colorway has already been confirmed by Kanye West.

Kanye first broke the news on a New York radio Power 105.1 Breakfast Club, that a   Black   version of the Yeezy 750 would hit the market soon, and some are projecting it to drop as early as this Fall/Winter 2015.

There has been no word on how Ye and adidas would use the shade of Black onto the sneaker, but here are detailed photos of how exactly the adidas Yeezy 750 Boost   Black   colorway will look like. The shoe sports an all-Black suede upper that was originally seen with a White boost sole, but the release version could be a fully   Blackout   colorway as seen below.
